

HP Color LaserJet Smart Printing Supplies for the HP Color LaserJet 9500 printer series and the HP Color LaserJet 9500mfp

Consistently outstanding print quality

- HP Smart Printing Technology* is complemented by HP's second generation spherical toner for consistently professional print quality. This superb print quality is defined by precise colour registration, sharp edges and crisp black text.

Easy to install and maintain

- HP's print cartridge architecture makes HP Supplies easy to install and maintain. Efficient supplies management is delivered by HP's innovative Smart Printing Technology* that can send timely alerts to dedicated users when supplies need replacing.

Reliable and consistent performance

- Precise matching of cartridge design, toner and printing process components creates a total printing system, engineered to guarantee a consistently reliable performance underpinned by rigorous quality testing and HP warranty.

Target audience

- Professionals or customer-facing parts of large companies demanding an economic solution for publishing a wide range of promotional documents in-house. Also for departments and workgroups in enterprises printing high volumes of colour documents.

The HP Color LaserJet 9500 Smart Printing Supplies produce crisp, sharp, vibrant results to meet the most challenging colour printing needs. Industry-leading print quality complements reliable performance for cost effective in-house publishing.

Improved electro-photographic process

Dynamic electro-photographic adjustments constantly optimise the print process to ensure consistent toner particle distribution throughout the stages of the print cartridges's life, ensuring consistent print quality from the first page to the last. Upon cartridge installation, information about the initial sensitivity of the drum is registered and stored, so minor fluctuations of the photosensitive drum can be accurately adjusted.
