"HP product lines stand out above the rest"[1]

Professional colour printing

Minimal interruptions. Maximum productivity.

The world's most secure printing[2]

Professional colour printing

Expect premium marketing materials and professional-quality documents with vivid colour images and graphics that stand out. The HP Color LaserJet Enterprise M751dn is built for great colour performance with an enhanced print mode and a toner formula designed for consistent quality and brilliant colour output.

Premium vivid colour prints

Print premium, professional-quality documents with vivid colour images and graphics that stand out. Enhanced colour mode is a special print mode that allows for a wider range of colours and an extra level of vividness and gloss for important documents, brochures, and marketing materials.

Look professional on every page with vibrant, high-quality colour prints that stand the test of time and support for paper sizes up to 305 x 457 mm and SRA3. Using SRA3, this printer can produce stunning, full-bleed A3-size brochures and marketing materials.

Consistent quality toner

Create consistent quality and the performance you count on with Original HP Toner cartridges and drums with JetIntelligence, specially designed and precisely engineered for HP printers and MFPs.

Count on consistently vibrant, professional-quality results. Specially formulated HP ColorSphere 3 toner is precisely tuned to match the powerful performance of your HP printer. Get the most from your cartridge with page maximiser technology that manages efficient toner use and cartridge performance.

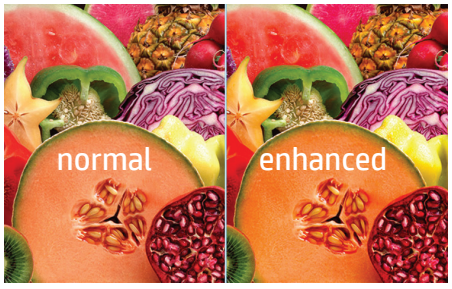
Speed through print jobs right out of the box. This device ships with preinstalled Original HP Color LaserJet Toner cartridges and drums with JetIntelligence. Auto seal removal enables simple and seamless installation of cartridge replacements, so you can get back to business fast—without costly delays or frustrating messes.

Energy efficient

Help keep energy costs down without compromising performance. This printer's energy saving sleep mode and faster time to sleep saves up to 70% more energy than predecessor, and it wakes up faster, saving time.[3]

Save paper and conserve resources with automatic two-sided printing. Consume up to 50% less paper by printing on both sides of the page. The duplex print setting is set at default paper savings mode to help save paper right out of the box.[4]

HP voluntarily designs and tests its printing systems[5] to prevent emissions that exceed eco-label (Blue Angel) standards and guidelines. Easily recycle your Original HP cartridges at no additional charge through HP Planet Partners.[6]



Avoid interruptions and stay connected

Annoying interruptions and complex maintenance can slow down printing, and ultimately, the pace of business. Avoid pauses in productivity with an HP Color LaserJet printer designed for maximum uptime—with reliable results you can count on and simple mobile printing options that let users print virtually anywhere, anytime.

Move business forward

Grab the documents you need and go. This device wakes up quickly and prints fast—with a first page out as fast as 5.7 seconds[7] and print speeds up to 41 pages per minute (ppm),[8] your pages are ready right when you need them. Walk up and print from a memory device using the easy-access USB port.[9]

Keep the pace of business moving with easy-to-replace, long-life supplies. Change the toner and drum in seconds—both are easily accessible and come pre-installed in the printer. And this HP Color LaserJet printer is designed with minimal parts for simple service and maximum productivity.

Stay connected

Easily print and share resources with built-in Ethernet and optional wireless networking.[10] All M751dn printers have optional wireless printing and NFC touch-to-print.[11]

The world is your office. Submit while on the go and release at any of your HP Roam-enabled office printers—simply and securely with HP Roam for Business.[12] Your mobile device will automatically discover nearby HP Roam-enabled printers.

Expand your capacity

Tailor this printer to the needs of your business with a wide range of optional paper-handling accessories. Most optional trays support media sizes up to A3. For a list of compatible accessories by model, see the paper-handling accessories table on page 7.

Print up to 4,450 pages without reloading paper, using the optional 2,700-sheet high-capacity input (HCI) tray and the optional 2x550-sheet paper tray.[13] Or choose the optional stand to store supplies and paper beneath the printer.

The world's most secure printing[2]

HP printers have the industry's strongest security[2] because they're always on guard, continually detecting and stopping threats while adapting to new ones. And only HP printers automatically self-heal from attacks, so IT doesn't need to intervene.

Always on guard

Only HP Enterprise devices offer built-in security features that are always on guard.[2]

- With HP Sure Start, each device regularly checks its operating code and repairs itself from attempted hacks.
- Whitelisting checks firmware during startup to help ensure it's authentic, good code—digitally signed by HP.
- Run-time intrusion detection continually monitors activity to detect and stop attacks, then automatically reboots.
- HP Connection Inspector inspects outgoing network connections to stop suspicious requests like malware.

Thwart potential attacks by receiving instant notification of security issues, so immediate action can be taken. This device works with tools like Splunk, ArcSight, McAfee, and SIEMonster.

Take security to the next level

Help protect your printer with more than 200 embedded security features.[14] Protect information in transit over the network and stored on the device—keys, passwords, certificates, and more. Store data on the 256-bit encrypted HP High-Performance Secure Hard Disk.[15]

Easily deploy and integrate HP and third-party solutions with the HP Open Extensibility Platform (OXP). Enter a PIN or password at the device to retrieve your print job and add features such as optional proximity card readers and more through the Hardware Integration Pocket (HIP).[16] Further safeguard data stored on the device, using the standard HP Trusted Platform Module.[17]

Build business efficiency

Centralise control of your printing environment with HP Web Jetadmin—and help build business efficiency.[18] Optional HP JetAdvantage Security Manager offers an effective, policy-based approach to help secure HP printing and imaging devices.[19] Easily set security configuration policies and automatically validate settings for every HP printer and MFP in your fleet.

HP JetAdvantage Secure Print[20] and HP Access Control (HPAC) help secure documents by requiring authentication to release print jobs. In addition, extend capabilities and easily customise with HPAC— integrate job accounting, manage rights, and establish quotas for things such as colour use.[21] Save IT time and make printing easy for the entire enterprise by using a single driver for all HP devices.[22]

[2] Based on HP review of 2018 published security features of competitive in-class printers. Only HP offers a combination of security features that can monitor to detect and automatically stop an attack then self-validate software integrity in a reboot. For a list of printers, visit: hp.com/go/PrintersThatProtect. For more information, visit: hp.com/go/printersecurityclaims.
[3] Based on HP internal testing using normalised TEC value, 2019.
[4] All new product introductions beginning in Fall 2019 will include consistent worldwide default duplex settings (across bundles/drivers); Spring 2019 will include consistent worldwide default duplex settings for most products across the most common driver.
[5] A printing system consists of HP printer, paper and toner cartridge.
[6] Programme availability varies. For more information, visit hp.com/recycle.
[7] Measured using ISO/IEC 17629. For more information, see hp.com/go/printerclaims. Exact speed varies depending on the system configuration, software application, driver, and document complexity.
[8] Measured using ISO/IEC 24734, excludes first set of test documents. For more information, see hp.com/go/printerclaims. Exact speed varies depending on the system configuration, software application, driver, and document complexity.
[9] An administrator must enable the easy-access USB port before use.
[10] The M751dn can add wireless networking with selection of the optional HP Jetdirect 2900nw Print Server (J8031A). If selected, you cannot also select the HP Jetdirect 3100w BLE/NFC/Wireless Accessory (3JN69A). Wireless performance is dependent on physical environment and distance from access point and may be limited during active VPN connections.
[11] Bluetooth® and touch-to-print capabilities are optional and can be added by selecting the optional HP Jetdirect 3100w BLE/NFC/Wireless Accessory (3JN69A). If selected, you cannot also select the HP Jetdirect 2900nw Print Server (J8031A). Mobile device must support Near-Field Communication (NFC)-enabled printing. For more information, see hp.com/go/businessmobileprinting.
[12] Subscription or accessory may be required. For more information, visit hp.com/go/roam. To enable HP Roam, some devices may require firmware to be upgraded and an optional accessory to add Bluetooth® Low Energy (BLE) beaconing capabilities. Customer can purchase the HP Jetdirect 3100w BLE/NFC/Wireless accessory or the RadBeacon USB.
[13] Selection of optional paper-handling accessories required to reach maximum input capacity.
[14] Some features require additional purchase. A FutureSmart service pack update may be required to activate security features. Learn more at hp.com/go/printsecurity.
[15] Optional HP High-Performance Secure Hard Disk (B5L29A) (FIPS 140-2 validated hard disk) can be added to the M751dn model.
[16] Solutions deployed through the Hardware Integration Pocket (HIP) may require additional purchase. The HP Color LaserJet Enterprise M751dn comes with a second-generation HIP.
[17] Use of the standard HP Trusted Platform Module accessory may require a firmware upgrade.
[18] HP Web Jetadmin is available for download at no additional charge at hp.com/go/wja.
[19] HP JetAdvantage Security Manager must be purchased separately. For details, see hp.com/go/securitymanager.
[20] HP JetAdvantage Secure Print works with any network-connected printer or MFP. On-device authentication is available for many HP LaserJet, PageWide, and OfficeJet Pro devices and selected non-HP devices. Some devices may require a firmware upgrade. Internet connection required for cloud storage and retrieval of print jobs. Print-job release from a mobile device requires a network connection and QR code. For more information and a list of supported printers and MFPs, see hp.com/go/JetAdvantageSecurePrint.
[21] Colour access control capabilities vary from device to device.
[22] The HP Universal Print Driver is available for download at no additional charge at hp.com/go/upd.
[23] Add up to two optional 550-sheet paper trays (T3V27A) in addition to up to one cabinet or stand (T3V28A, T3V29A, or T3V30A). Maximum input capacity reached using two 550-sheet trays and the 2,700-sheet HCI Paper Tray and Stand.
[24] Recommended Monthly Page Volume (RMPV): HP recommends that the number of printed pages per month be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period.
[25] Average black and colour composite (C/M/Y) declared yields based on ISO/IEC 19798 and continuous printing. Actual yields vary considerably based on images printed and other factors. For details, see hp.com/go/learnaboutsupplies.
[26] Measured after 15 minutes in sleep. Exact speed varies depending on the system configuration, software application, driver, document complexity, and time in sleep.
[27] To achieve maximum memory, purchase a DIMM accessor. A firmware update may be required for configuration page to accurately reflect the accessory DIMM is installed.
[28] Duty cycle is defined as the maximum number of pages per month of imaged output. HP recommends that the number of printed pages per month be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period.
[29] Supports the following devices running iOS 4.2 or later: iPad, iPad 2, iPhone (3GS or later), iPod touch (3rd generation or later). Works with HP's AirPrint-enabled printers and requires the printer be connected to the same network as your iOS device. Wireless performance is dependent on physical environment and distance from the access point.
[30] Printer requires ePrint account registration. App or software may be required. Wireless operations are compatible with 2.4 GHz operations only. Learn more at hp.com/go/mobileprinting.
