The ideal printer for professionals in small businesses, branch offices and small workteams or demanding individuals within any size office, who need to create black and white and colour output to a high standard.

Save space and money with this light, compact, colour laser printer, designed for desktop use.
- High productivity with up to 4 ppm colour, 16 ppm black and white.
- A 300 MHz processor, an instant-on fuser that provides fast first page out with no warm-up delay and the quick calibration reduce the time spent waiting for your documents.
- HP Imageret 2400 and improved second generation of chemically grown toner deliver a wide range of colours and consistent print quality over the life of the print cartridge.
- Cost per page for black only printing equivalent to personal monochrome laser printers.

Make life easier with one-door access to all supplies, a simple control panel and high reliability.
- Simple one-door access to end user replaceable supplies and automatic top-positioning of the empty print cartridge make the HP Color LaserJet 2500 series very easy to operate.
- See supply status at a glance on a simple control panel for easy maintenance.
- Use the software toolbox for real-time status, configuration and troubleshooting information.
- HP Web Jetadmin and an Embedded Web Server ensure easy management with other HP LaserJet printers and make remote management simple and convenient.

Enjoy the flexibility to upgrade as needed, with internal networking and paper-handling accessories.
- Compatible with your operating environment - standard USB and parallel port, optional networking via HP Jetdirect EIO internal print servers and HP PCL 6, PCL 5c and Postscript level 3 emulation for compatibility.
- Expand paper capacity and media handling flexibility with up to 3 trays and up to 875 sheet input capacity reducing end user intervention and increasing productivity.
- Print large and complex documents quickly and easily with 64 MB standard memory - expandable up to 256 MB memory.
